

Pure Romance by Pam

Product Cheat Sheet

All products are sugar-free except the body chocolate. They do have natural food products for authentic flavoring, so if you're allergic to the food, don't choose that flavor of product.

Between the Sheets- A scented, silky pheromone spray for your sheets. Also great for your lingerie drawer, to dry the wet spot, inside your shoes, spray on your clothes to help with perspiration, or for a simple air freshener.

Bosom Buddy- A fun lip and nipple sensitizer. Tastes great and tingles when it is applied to nipples. A good way to jump start your "mood". Also good for soft lips, healing cuts, hangnails and chapped lips. *Keep above the waist!*

Come Clean- Anti-fungal, anti-microbial, and PH balanced cleanser for your toys. Will sanitize and increase the life and quality of your toys and is body friendly. Alcohol, bleach and most 'regular' soaps may will ruin your toys and cause irritation.

Coochy- Rash free shave cream designed for women with sensitive skin but great for men's faces as well. Eliminates razor burn, red bumps and itchiness anywhere you shave. Apply and wait 1-2 minutes (the longer the better), then *shave in the direction that the hair grows*. The more you use it, the better it gets!

Ex-T-Cee- Mild air-activated arousal cream with mint oil to increase sensitivity of your clitoris. Apply a pea-sized amount.

Great Head- A powerful desensitizing gel to use on him during oral favors. Swish a dime to nickel size amount in your mouth and swallow it. Makes him extra sensitive (speeds him up) and coats your throat to relax your gag reflex.

Heart Massager- Gel pack that heats up when you click the metal disk. Stays hot for 30-45 minutes and is *reusable*. Once the heart cools and hardens, boil your water, place heart in boiling water for 12 minutes. Remove with tongs, let cool, and it's ready to use again. Great for massage, cramps, backaches, ear aches, and more. *You don't have to boil it immediately after using it. It's okay to let it sit until you have time.*

Just Like Me – The most natural feeling, gentle lubricant. PH balanced and won't irritate the most sensitive woman. Enhances your own body moisture. Reactivates it's slipperiness with any wetness.

Lickity Stiff- Lubricant that makes him more sensitive. Use a quarter-sized amount and run it all over his penis. This may make him climax quicker. Great for quickies, oral favors and for use inside the male massage toys for him.

Like a Virgin- An alum-based tightening cream that makes you feel tighter to him and he'll feel bigger to you. Apply a pea sized drop to the inside of your vagina using your finger (up to the second knuckle on index finger) and swirl around to coat the tissues. *Apply at least an hour before intercourse*, this gives it time to be absorbed and swell the tissues some. **No oral favors from him during that first hour. It will last about 24 hours.**

Nympho Niagra- Our "middle intensity" arousal cream that increases sensitivity with air-activated menthol and Triethanolamine which absorbs into the skin and makes the blood rush to your genital area. Combined they create a cool and warm effect which increases your arousal rate and ability to orgasm. Apply a pea sized amount to your clitoris and allow it to absorb for a minute. No flavor or color is added to Nympho so it is recommended for sensitive women prone to yeast, bacterial or urinary tract infections.

Pure Pleasure/Pure Silk- Our longest lasting lubricant. Silicone based, slick, long lasting without re-wetting.. Non-irritating and gentle. Great for hormone induced dryness, vaginal, water sex or anal sex. Not for use with silicone toys. Pure Silk is a great option for the same silky feel, but won't damage toys.

Sensations-Edible massage lubricant that warms when rubbed and gets hot when you blow on it. Great for oral sex. Use a dime-sized amount and remember the more friction and warm air, the hotter it gets. Not for latex use – use polyurethane condoms.

Sweet Seduction- Silky, long-lasting lube made with highest quality glycerine. Safe with all toys with a naturally sweet flavor. Safe for sensitive women. (Vanilla-flavored is often compared to cake batter in taste!)

Up All Night / Time in a Bottle- Prolonging cream for him. Apply a quarter-sized amount around the head and to the underside of penis or scrotum during foreplay. *Let it soak in for 5 minutes.* Adjust the amount based upon your needs. (Time in the bottle's name was changed to Up All Night recently. Same product.)

X-Scream- The most powerful, edible arousal unisex cream. Speeds arousal by increasing the blood flow to the genital area and has twice the menthol as Nympho Niagra. Works great for women who have a low sex drive or have a hard time reaching orgasm due to hormones, after childbirth, stress, age, anti-depressants or other medication. Apply a pea-sized amount to your clitoris and allow it to absorb for a minute. For him, rub around the head and along his main vein on the underside of his penis. It will speed him up. Great for blow jobs.

Whipped – A flavored, creamy lubricant or massage cream containing shea butter. Excellent lubrication for toys, especially c-rings and men's masturbation toys, as a lotion or for oral favors and tastes amazing! Not for latex use – use polyurethane condoms.

BEDROOM ACCESSORY USE, TIPS and DIRECTIONS

TOY CLEANING AND STORAGE

- Remove batteries and replace the battery cover before cleaning your toy. Store toys without the batteries in place.
- Rinse your toy with warm water first. Spray Come Clean generously on your toy and wait 30-60 seconds. Rinse, wipe off with a clean, lint-free cloth or paper towel. NEVER submerge your toy in water UNLESS it is waterproof. Clean before AND after each use.
- Soap and rubbing alcohol will damage your toy by creating small “pits”. Bacteria can get trapped in these “pits” and lead to a yeast or bacterial infection. They are also not meant to go inside you so could potentially cause irritation.
- Always use a water or glycerin based lubricant with your soft toys, not lotion, petroleum or silicone based lubricants.
- Store toys separately - in a special ‘toy’ bag such as the Sugar Sak or even a sandwich baggie will work, so long as the toy is completely dry first so it doesn't hold moisture in. If toys have silicone in them and touch another silicone toy, it will create a reaction that melts them!
